DETAILED ACTION

Formal Matters

The finality of the last Office action is withdrawn, and new grounds of rejection are set forth below. Claims 65, 69, 73, 77, 80, 83-91, 93 are pending and under consideration.

Response to Amendment

The rejection of pending claims 65, 69, 73, 77, 80, 88-91 under 35 U.S.C. 112, first paragraph, as lacking enablement, has been obviated by Applicant's amendment and is thus withdrawn.

Claim Objections

Claim 77 is objected to under 37 CFR 1.75 as being a substantial duplicate of claim 65. Claim 90 is objected to under 37 CFR 1.75 as being a substantial duplicate of claim 86. When two claims in an application are duplicates or else are so close in content that they both cover the same thing, despite a slight difference in wording, it is proper after allowing one claim to object to the other as being a substantial duplicate of the allowed claim. See MPEP § 706.03(k).

Claim Rejections - 35 USC § 112 first paragraph

Claim 93 is rejected under 35 U.S.C. 112, first paragraph, as containing subject matter which was not described in the specification in such a way as to reasonably convey to one skilled in the relevant art that the inventor(s), at the time the application was filed, had possession of the claimed invention. The specification as originally filed does not provide support for the invention as now claimed: a method of claim 65, 69, 73, 88 or 90 wherein the mammal is "at risk of" leukocyte migration or recruitment.

Art Unit: 1646

Applicant's amendment, filed 9/20/2004 does not provide sufficient direction for the written description for the above mentioned limitations of claim 93. The specification as filed does not provide a written description or set forth the metes and bounds of this phrase. The specification does not provide direction for the instant sequence encompassing the above-mentioned "limitations" as they are currently recited. The instant claims now recite limitations which were not clearly disclosed in the specification as-filed, and now change the scope of the instant disclosure as-filed. Such limitations recited in the present claims, which did not appear in the specification, as filed, introduce new concepts and violate the description requirement of the first paragraph of 35 U.S.C. 112.

Applicant is required to cancel the new matter in the response to this Office action

Alternatively, applicant is invited to provide sufficient written support for the "limitations" indicated above.

Claim Rejections - 35 USC § 112 second paragraph

The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

Claim 93 is rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

The term "at risk of" in claim 93 is a relative term which renders the claim indefinite. The term "at risk of" is not defined by the claim, the specification does not provide a standard for ascertaining the requisite degree, and one of ordinary skill in the art would not be reasonably apprised of the metes and bounds of the invention.

Art Unit: 1646

Conclusion

Claims 93 is rejected.

Claims 77, 90 are objected to.

Claims 65, 69, 73, 80, 83-89, 91 are allowable.
